

RAYMOND

A live town in a rich agricultural and stock-raising district. A good place to make your home.

Raymond Recorder

Volume 32

THURSDAY, JUNE 29th, 1933

Number 17.

Mr. Farmer Here's A Message For You

To Sugar Beet Farmers:

Stirling-Raymond-Welling and Magrath Areas

The Sugar Company is in sympathy with the movement initiated by the Raymond Board of Trade for encouragement of dairying, on a commercial basis throughout the district. In our opinion most beet farms of the irrigated sections would greatly benefit by the increased use of dairy cattle, with the by-products of bacon, pork, poultry, etc., from the skimmed milk which would be produced in dairying. Because of the available supply of Beet Pulp and Beet molasses, together with the roughage now produced on our farms, we are in an ideal situation to concentrate on winter production of milk, with cows freshening in September of each year, so securing the higher prices paid for winter butter-fat.

To encourage increased production, the Sugar Company will, to every farmer who establishes, by evidence of his cream shipping cheques or otherwise, that he is producing milk products on a commercial basis, sell Beet Pulp for a term of 3 years commencing October 1st, 1933 on a straight basis of 30 cents per ton at the factory silo. We will also sell Beet molasses, to such dairy farmers at a price of \$5.00 per ton, for the same period, at the molasses

Genealogical Convention

Among the speakers at the coming Genealogical Convention will be Jack Galbraith, of Brown Ing, who has had some wonderful experiences in his life, and will speak on "His Conversion," which experience is outstanding in his life, and is made more interesting because of his personality in telling it.

As previously announced Archibald F. Bennett of Salt Lake City, Pres William R. Sloan of the North-Western States Mission, and Stake Presidents Allen, Wood and Palmer will all take part on the program.

Remember the dates, Saturday and Sunday, July 8 and 9. Meetings at 10 a.m. and 2 p.m. each day, and a Grand Concert Saturday night.

We are in receipt of a letter from our friend J.E. Clark, who has spent the past year in St. James, Manitoba. He reports a successful year for the children in school, and states that they expect to be back to Raymond for the Stampede. His future plans are still indefinite.

Golf Notes

Another record crowd was at the Local Golf Course on Sunday, with a good representation from outside towns, and according to reports, more people here than at either Waterton or the Lethbridge courses.

The Men's single handicap Tournament was well attended and keenly contested, 26 entrants taking part, and the contest being run off in three flights.

Lou Middleton of Welling, and a local member, won the first flight, and won one of the prizes. He defeated Ross May of Lethbridge.

Joe McLean took the second flight, winning over I. Kitchen. Grant Holt won the third flight, defeating Rayo Woolf.

The Ladies' flight were run off in two full foursomes, there being two flights.

Mrs. Dr. Hall and Miss Margaret Gunning were winners of the first flight.

Miss Thelma Hepler of Lethbridge and Ethel Rutten won the second flight.

Mrs. F. Hall and Georgia Reay won the hidden hole prizes, each one winning a Marcell, donated by Mrs. Grant Holt and Mrs. Douglas.

Prizes for the day were donated by the Consumers Hardware, and the Motor Car Supply Co. of Lethbridge, and also by the merchants of Raymond.

High score for the day was turned in by Lou Middleton playing the nine holes in 39 shots.

Gordon Rutten is training for the Southern Provincial Championship Tournament which will take place in Lethbridge July 1 and 2, in which he is going to take part.

The objective of the officials of the local club have been more than realized for the year, as they now have 103 paid up members to the club.

We beg of our beet growers, who could utilize this offer of the Sugar Co., to think long and well before they decide to say no. The proper decision now may spell success or failure in years to come. Think it over. —Editor.

Looking Back Thirty Years

Thirty years ago next Saturday, Raymond was incorporated as a town. No village or swaddling clothes for Raymond, her first incorporation was as a town, and she immediately set to work to build for the future, which policy has characterized all civic legislation from that time forth, and still is the watchword of the Council and city officials.

Think back to the beginning of our town's history. Lethbridge was a building city, a day's journey away, Magrath was nicely started, a three hours drive away, and Cardston was a long day's journey, if not two to the west, and few inhabitants in either place. Miles and miles of country without a fence post, no telephones, no railways south of Lethbridge, uncertain and infrequent mail service. Gravel roads, why, they were not even thought of and roads that one could travel over at a rate of 45 or 60 miles an hour going from here to Lethbridge in 40 minutes, the idea would have been laughed at and the perpetrator been laughed to scorn.

In the midst of all this, the founders of the Town went to work. They laid out a town-site large enough to accommodate many times the population streets were surveyed, and one of the first projects was tree-planting, and while the barren T. J. O'Brien, I. L. Pack, Demarrie surrounded and invaded Vee Woolf, O. H. Snow, Geo. H. Court, Percy W. Cope and Wm. G. Meeks.

News Notes

"STATE FAIR"

Hot air and cold feet usually are pals.

You can't uplift people by sitting down on them.

The Raymond Mercantile unloaded a car of shingles this week.

Mr. and Mrs. Ross May of Lethbridge were Raymond visitors at the Golf Course on Sunday last.

Meet your friends at The Capitol Stampede night, July 1 and see Zane Grey's, "Snake Lightning."

C. R. Wing and party returned last week-end from their trip to Utah where they visited with relatives and friends and attended the M. I. A. Convention. "C.R." viewed the says he never seen such a sorry wreck of the D. H. Grow car and looking sight in his life.

BEAUTIFUL STORM

Well folks, we are having our million dollar rain. After numerous attempts to rain, clouds, wind, even the smell of rain and disappointment, Jupiter Juvius pulled the plug Wednesday morning about 7 a.m. and turned it loose, in falling intermittently all day Wednesday in light and heavier showers, not coming so fast, but what it could all sort in and the crops and gardens absorbed every drop of the refreshing moisture.

Crops have stood up wonderfully well, and the showers of last Wednesday, last Sunday, and again this Wednesday have made all the difference in the world in the crop outlook. With wheat over the 80c. mark Wednesday, things looked pretty good, and everyone is hoping prices will stay up and every crop make a 40 to 50 bushel stand.

Lawrence McNaughton of Cardston was a Raymond visitor on Sunday.

All Set For The Big Stampede

Everything is in readiness for the Stampede on Saturday, and when the program starts at 1:30 p.m. there will be plenty of action every minute of the time. For the first time in Raymond's history, the events will be broadcast by loud speakers so that everyone in grounds and stands will be able to hear all that is going on, and who the riders and horses are. The phones from the chutes to the announcers stand were installed on Tuesday, and the loudspeakers and microphones, will be put in and ready for the big time.

With the morning program at which Gen. Stewart of Lethbridge will be the main speaker, the kiddie's sports in the morning, the Stampede and the dance, or dances at night, it will be a full and busy day for everyone. Make your plans to take in the Stampede, if you don't enjoy quite all of it, the kids will and they are the ones who enjoy the fun most anyway.

Rev. Ben Spence Is Heard Again

HAIL STONES LARGE AS
HEN'S EGGS DEVASTATE
LARGE STRIP NEAR
HERE

GARDENS HAMMERED INTO
GROUND; TWO PEOPLE INJURED IN 50-MILE GALE

WORST HAIL STORMS SINCE
1910

HAIL HITS WITH TREMENDOUS
FORCE: EVEN
PUNCTURES CAR
RADIATOR

On Saturday afternoon a raging hail storm struck the district just north of town, practically demolishing everything in its path over a strip eight miles wide, from Dr. Wiley's corner to a mile north of the Y.E. Ranch.

Such was the storm's fury that it could be heard some minutes before it struck, warning chickens, small animals, and even human beings, to seek shelter, so the damage from this source was not so great as it might have been.

Gardens and crops were beaten into the ground, windows not protected by wire screening were broken, nearly a mile of telephone poles near Dr. Wiley's was blown down, branches two and three feet long torn off trees, shingles split and torn off buildings and, in some cases, roofs were destroyed and rain poured into homes through the roof, as well as through the broken windows, and fences were carried away by horses panicked when caught in the open.

Mrs. J. St. Peter and daughter, caught en route returning from town in an open buggy, were injured. Mrs. St. Peter's head was cut and her daughter's back was torn by the huge hail stones as large as hen's eggs, with ragged cutting edges driven by the velocity of a 50 mile wind. Luckily, Mrs. St. Peter was able to gain shelter at the home of Mr. Alexander before she was seriously injured.

Reports state that over fifty panes of glass were broken in Sam Akroyd's house, in fact, practically every pane of glass on the west side of all houses in the path of the storm were broken.

Some farmers report injuries to stock, some turkeys being killed and injured, while colts and calves show signs of the ferocity of the storm through a liberal display of bumps and bruises.

Gardiner Boyd reports damage to his car, a hole being punctured in the top and the radiator pierced by the hail stones. Reports have been received from as far east and north as Paradise Valley of the traces of the storm, although in most cases very little damage has been done to the crops, but the gardens suffered considerably. In one case sufficient hail stones were gathered to make a barrel of water and in another a large freezer of ice cream was made with the assistance of the hail stones gathered just outside the front door.

The sizes of the stones were the largest seen in this district since 1910—authentic reports agree they were larger than hens' eggs. Wainwright Star.

R. H. Duncan, Linotype operator of the Edmonton Bulletin staff spent the first part of the week in Raymond with relatives. He is on his holidays at present.

The regular Priesthood meeting on Sunday was addressed by Rev. Ben Spence on the subject of "Prohibition", and for nearly an hour he held his audience with statistics regarding the liquor problems of Canada and Alberta in particular. He related the efforts of the Prohibition forces to abolish the Beer parlors, and of the delay on the part of the Provincial Government to take any definite stand in the matter. The present campaign was to force the government to a Bill or a Ballot and the speaker solicited the support of the audience in the efforts to bring this about.

Speaking of alcohol and its evils, he stated that it was its presence in all liquors that made them so harmful, and that the drug itself attacked the higher senses and qualities of its victims and gradually destroyed his love of beauty and culture. Statistics showed that as it was made easier for people to obtain liquor the offences against laws increased, and as it was made more difficult for them to obtain liquor these offences were lessened, and this notwithstanding all the arguments of the contrary.

Referring to the Government Control phase of the question, he stated that it did not do away with the private profit side of the question, and that in its final effect it was just as bad to get drunk sitting down as it was standing up, and changing the system of consumption did not change the ultimate results. Liquor could never be controlled by any government or any other organization after it had been sold to the consumer, and because of this there was little if any virtue in the boasted method of Government Control.

The State Agricultural College of Oklahoma will enter a grain judging team in the inter-collegiate contest which will take place during the World's Grain Exhibition and Conference in Regina this summer according to Mr. H. W. Staten, Assistant Professor in the Oklahoma Agricultural and Mechanical College at Stillwater.

The members of the team Mr. Staten announces will be selected before July 1st.

This is the second inter-collegiate team entered from the United States. The judging contests at the World's Grain Show will be conducted in three classes; junior, intermediate and inter-collegiate.

Mr. Rogers, President of the Canadian Sugar Factories, Ltd. is visiting here from Vancouver, having arrived here Tuesday morning.

ENJOYABLE WEEK-END AT WATERTON

A very enjoyable week-end was spent at Waterton National Park by a party of local people who went there, the guests of Mr. and Mrs. D. H. Ellison, residents of the Park.

Leaving here Saturday afternoon, the afternoon and evening was spent in golf, and the evening in dancing in the Pavilion, after which refreshments were enjoyed. On Sunday golfing and riding occupied the time, part of the party making a trip to Cameron Lake and vicinity. The party returned home Sunday evening after a very enjoyable trip.

Those in the party were the following and their wives; Leo Brewerton, John Allen, F. R. Taylor, A. H. Zabriskie, T. Geo. Wood, C. O. Asplund, S. B. Card, G. W. Leech and W. L. Shields of New Dayton.

SUPPORT THE STAMPEDE!

How deep is your interest in your own home town? How much are you willing to put up to see it continue to progress and advance? What would you like to do to the person who continually knocks the efforts of those who try and make it a better town?

And what has all this to do with the question at the top of this page? Just this, the Stampede is your show. It is sponsored by an organization that is made up of the citizens of your town, who are and have been interested and to the fore in boosting projects that would benefit and build up Raymond. You may cuss them, you may find fault with them, and your criticism may be partially, and at times maybe all correct and at the same time were it not for past and present officials of the Board of Trade who have labored unceasingly for all of us, Raymond would not be as favorably situated as she is today, by long odds, and we would all have been poorer.

So we repeat, support the Stampede. It will need it to make a successful day of the National Holiday, and any reserve that may result from the day will be used, as Board of Trade funds always have been used to boost and build Raymond and district. One of the best shows ever put on in our town is planned for Saturday, loud speakers will tell you all about each event, and the afternoon will be crammed full of interesting thrills and spills.

Much has been said about the Admission charges. You can't put on a dollar show for fifty cents, and we yell about that much here, while we would go some other place and fork up that much and even half as much again, for no better show than we have right here and feel good about it. See the show and enjoy yourself.

And remember, Mr. Sourkraut, the present pilots of your Stampede and Board of Trade are only there by majority vote of members present, and when you want them changed you can have a vote for a dollar, and maybe for that dollar you can have the job of President, and then you can show everybody how things like this, that and the other should

be handled. Anyway, bury the hatchet, and come out to the show on Saturday.

CONTENTMENT

ELUDES ALL

When one is born into this world naked, with no place provided in advance for shelter and no provision made for food, such person, if he has a grain of intellect, becomes a reformer. He questions the right of the more fortunate to be born to downy cradles or frescoed ceilings. He is earnestly bent on an equal distribution of the good things of the more fortunate or the better born.

On the other hand, he who is born rich or attains to riches soon learns that all the gorgeous creatures in their fine houses and automobiles, silks and laces, diamonds and furs, are chasing in the same race with himself — after the unattainable. The real aristocracy, like the foot of the rainbow, vanishes as he approaches.

There are two phases of life unfavorable to peace and comfort: the one is adversity, the other prosperity.

When prosperous he patronizes; when evil trouble falls upon him he whines and is a horrible bore. When he is down his friends wish him up on their account; when he is high they sigh for mountains to fall on him and bury him out of sight.

If one wasn't born every minute this would be a dull world.

Almost everybody has good intentions, and doubtless Cain's idea was to reform his brother Abel.

DID YOU EVER

STOP TO THINK!

By Edson R. Waite
Shawnee, Oklahoma

I quote my old friend, James Barrett, managing director of the Oklahoma Biltmore hotel, quite often. Fact of the matter is, I spend as much time as I can in the air-cooled lobby of the hotel. It's about the coolest place on a hot day that I know of.

Jim is quite a booster for Oklahoma City. In fact, he is one of the town's best boosters. The other night as I was chatting with him, a long-faced chap a resident of Oklahoma City, came up and proceeded to tell him that he did not like many of the town's beauty spots. He acted like the original hometown knocker. He didn't like anything or anybody and evidently hated himself also.

In his usual pleasant, smiling way, Jim said to him, "If you

can't see the good things about Oklahoma City your vision must be impaired. You should have your eyes examined. You should not neglect them, for your eyes are your most important possession."

Well, I thought that was pretty good advice for the citizen who can't see the good things about his home town. He not only should see an eye doctor, but a brain specialist as well.

BANK OF MONTREAL CROP REPORT

June 26th, 1933

GENERAL

While conditions are fairly satisfactory in the Prairie Provinces, crops have suffered from intense heat during the past week, and good rains are required over large areas to avoid serious effects. The grasshopper menace has become serious and is causing damage in scattered sections of all three Provinces. In Quebec cool weather and lack of moisture has retarded the growth of crops generally. In Ontario crops are in advance of former years but rain is badly needed to promote growth. In the Maritime Provinces recent rains have proved beneficial and crops above the ground are showing satisfactory growth. In British Columbia early crops have made poor progress in the Fraser Valley and it is estimated that yields of grain and hay will be considerably below average. Conditions have been more favorable in the interior of the Province. Details follow:

Prairie Provinces

ALBERTA: Northeastern Area: Summerfallow wheat is 6 to 10 inches high and stooling satisfactorily. Crops have not been seriously damaged. Southeastern Area: Stubble crops in some areas are practically dried out. Crops in heavier soil are more satisfactory. Western Area: Average height of wheat is 6 to 8 inches. Stubble crops in the southern portion are suffering badly from heat and dry winds. Sugar beet crops are doing well. Saskatchewan, Northern Area: Wheat has stood out well and has a healthy appearance. The average height is 10 inches. Coarse grains are doing well. Southern Area: Early sown wheat on light lands has suffered deterioration. Wheat is coming into shot blade. Given rains within a short time, there is still a fair prospect. The condition of coarse grains is fair to good. Manitoba. Conditions generally are favourable, although abundant growth and intense heat have made a heavy demand on moisture reserves. Wheat averages nine inches in height and is entering the shot blade stage. Weed growth is heavy and grasshopper damage serious in a number of districts. The hay crop is good.

PROVINCE OF QUEBEC

Seeding has been practically completed. Present indications are for an under average hay crop. Small fruit bushes and apple orchards are progressing well. Grass pastures are in fair to good condition. Warm weather with rain is needed.

PROVINCE OF ONTARIO

Fall wheat is heading out well and a good yield is predicted, spring wheat shows normal growth and promises an average crop, barley and oats are making satisfactory progress. Pasture is in good condition, but in some districts is becoming dry. Cutting of hay is general and a heavy crop seems assured. Corn planting and seeding of root crops has been completed under favourable conditions. Lack of moisture is retarding growth of tobacco plants. Replanting of areas that suffered from recent wind damage is under way but plantings are scarce and indications point to a reduced acreage. The outlook for fruit continues promising, with prospects for a good apple crop but a slightly below average yield of peaches.

MARITIME PROVINCES

Seeding is well advanced. Hay promises to be good crop. Apple orchards and small fruits promise well. Grass pastures are in fair to good condition.

PROVINCE OF B. C.

The first crop of alfalfa is being harvested, yield is 100 p.c. of average. Fruit trees are in good condition but the estimated yields are about 15 p.c. below average. The strawberry crop is about 80 p.c. of average, while raspberries are a partial failure owing to winter killing. Hops show good growth and indications point to a heavy crop. Tomatoes and potatoes are doing well. There is adequate moisture on the ranges and pasturage is plentiful.

DATED at Raymond, Alberta this 30th day of May, A.D. 1933.

O. H. SNOW,
Sec.-Treas.

Alberta News Bulletin

Issued by Publicity Commissioner, Government Buildings, Edmonton, June 26, 1933

FINAL 1932 DAIRY FIGURES

The final revision of figures for dairy production in Alberta during 1932 have been issued by the provincial dairy commissioner's office as follows:—

The total production of creamery butter from 95 creameries was 21,045,048 lbs. valued at \$3,124,675, compared with the all-time production record in 1931 of 21,549,222 lbs. from 93 creameries valued at \$4,711,232. The production of cheese in 1932 was 1,439,715 lbs. valued at \$146,177 compared with 1,040,348 lbs. in 1931 valued at \$118,290. The total value of all dairy products, including those manufactured on the farms, the milk production, etc., was \$11,340,690 in 1932, reflecting the low price levels in that year. The average production of milk per cow in Alberta has increased from 2,256 lbs. in 1910 to 2,279 lbs. in 1932. Prizes taken by Alberta creameries at the large exhibitions in 1932 totalled 137, or 19.5 per cent. of the total prizes offered. In 1931 the percentage of the total was 16.

During the period from January to May, 22 weeks in 1933, there has been considerable increase in butterfat production as compared with 1932. The figures show deliveries to creameries for this period totalled 6,897,955 lbs. compared with the 1932 figure for the same period of 6,467,693 lbs.

BIG NEW SUGAR WARHLIGER

Construction of the large new sugar storage facilities at the plant of the Canadian Refineries at Raymond, is progressing nicely. The new bins will provide storage for four million lbs. of sugar.

RELIEF AGREEMENT RENEWED

The relief agreement between the province and the federal government is renewed to the end of the year, according to an announcement by Premier Brownlee who returned this week from Eastern Canada.

UNVEIL MEMORIAL

A memorial tablet to the late Mrs. O. C. Edwards of Macleod, who for many years was a leader in women's activities in the province, was unveiled this week at the provincial legislative buildings, the tablet being presented by the provincial executive of the National Council of Women.

UNEMPLOYED FAMILY SETTLEMENT

The full quota of 260 applicants for family settlements under the present joint federal-provincial-land settlement agreement has been passed upon by the provincial land settlement committee, and nearly 260 of the families have already been placed on the land.

PROMINENT VISITORS

Among the interesting group to visit Alberta during the past few weeks was the party of 11 delegates to the 11th annual congress, headed by Sir John McKel Williamson, G.B.E., director of the British postal service.

NEW AIRPORTS FOR ALBERTA

Two new airports are to be built as part of the new federal relief program in the province and are proceeding with haste. The first in point will be a new airport at Cooking Lake, and the second at Coleman. In the first joint venture, the province is providing the necessary land and the city of Edmonton is to operate the port as an extension of its large airport in the city. The construction of this

port will mean the transference of a large proportion of the air travel of the northland from Fort McMurray to Edmonton, as at present the passengers from the north must come to the capital city by train from McMurray. Another airport is to be built at Coleman with unemployed labor. About 150 men will be employed at Cooking Lake and the same at Coleman under the direction of the provincial relief commission.

HONOR TO ALBERTA OFFICIALS

Special honor was done recently to two Alberta government officials, when J. D. Baker, general manager of the Alberta government telephone system, was re-elected president of the Canadian Telephone Association and Alex Mitchell, controller of the government system, was re-elected to the post of secretary.

THE GRASSHOPPER SITUATION

During the past week the grasshopper situation in southern districts has grown more acute, and on a more widespread scale. Nearly 500 tons of poison bait per day are being sent out, and the area of infestation has now reached as far north as the C.P.R. Coronation branch and west of Lethbridge to Pincher Creek.

CONSOLIDATING TAX ARREARS

For the purpose of encouraging property owners to liquidate any arrears of taxes, and also to give better opportunity to those whose lands may have passed under the tax recovery act, to regain title or at least protect their property from sale, the provisions of the new tax consolidation act passed at the last session of the legislature, have now been brought into effect and may be taken advantage of. The act provides for arrears of taxes of more than a year's standing, as at the beginning of 1933, to be consolidated, and payment made in six annual instalments, each to be paid not later than December 15th in each year. The first instalment is to be ten per cent. of the consolidated arrears, the second instalment 10 per cent., the third 15 per cent., the 4th 20 per cent., the fifth 20 per cent., and the sixth 25 per cent. Those wishing to avail themselves of the advantages of the act must apply in writing to the municipality before October 1st. Owners of land whose taxes were consolidated under the act of 1931 and 1932, may now come under the new agreement by making application up to October 15th. The instalments collected under the new system will be pro-rated among the various taxing authorities involved. The new act provides also for certain discounts on the payments of the instalments of arrears, as follows: For arrears of six years and more 25 per cent., arrears of five years, 22 per cent., of four years 18 per cent., of three years 14 per cent. and of two years nine per cent. These discounts will be computed, not on the total amount of the consolidation, but separately on each class of tax involved. That is, if the portion of the consolidated amount which is due on supplementary revenue is in arrears for six years, then the 25 per cent. discount applies, but if that portion of the total which applies to another class of tax is in arrears only four years, then it would receive only 18 per cent. discount and so forth. The act also assists those whose property is at present under the tax recovery act, by permitting them also to make an agreement to pay up arrears under the new act, and on completion of all the requirements of the agreement, regain title to their lands. This applies to owners of two acres and more. A special additional discount of four per cent. is allowed those who can pay the entire consolidated sum in one payment, this discount being computed on the net amount of arrears due, after the other discounts have been deducted.

GEO. FROMM
— RAYMOND —

MAIL ORDERS PROMPTLY ATTENDED TO.

"The Murder of the Circus Queen" at the Capitol, Tonite.

The biggest day of many years for Raymond will be Saturday.

At the pound sale held Monday, the two animals were bid in by Henry Jensen.

Mrs. Joe. Harker is here visiting with relatives and friends for awhile from her home in Washington.

Mrs. Lemond Cox returned home from the Galt Hospital on Tuesday, and is convalescing after a successful goitre operation.

L. D. King and Mr. and Mrs. S. I. May were in Court and intermediate towns on Saturday posting advertising for the big Stampede on Saturday.

"STATE FAIR" with Will Rogers and Janet Gaynor is coming soon. Remember the dates, July 13th 14th and 15th.

Frank Atterton spent the week end with relatives and friends in Cardston, returning Monday morning.

Saturday is Dominion Day and a Statutory holiday, and of course all stores and offices will be closed.

Preserving strawberries are on the market now, and prices are down in proportion to what they have been other years.

Harry Parker and his helper were here Tuesday replacing a telephone pole that was broken off last week.

Wheat closed Tuesday at 81 and 7/8, the highest quotation in the past three years. These quotations are very cheering to the farmers.

Honoring their manager, Milton Strong in view of his approaching marriage, the Band at their practice Monday evening last, presented him with an electric fixture for his home.

A. E. Russell, Sec-Treas. of the Lethbridge Fair Board was a Raymond visitor on Tuesday last.

Entries for the Stampede events commenced coming into the Secretary's office on Tuesday last, showing wide interest in the celebration.

Capitol, Tonight and Friday, "The Circus Queen Murder", the all talking version of the famous story which run in the Liberty Magazine. Do not miss it.

Summerfallowing is the order of the day, but much of the soil is turning up pretty dry and rough. Weeds have made splendid growth since the showers of last week and this.

Mr. and Mrs. Frank Atterton, Sr., of Cardston were Raymond visitors Saturday, visiting here for awhile and then continuing on into Lethbridge. Frank our local photographer accompanied them from here.

The pouring of the cement in the Storage bins at the Sugar Factory, was finished in the wee small hours of Wednesday morning, in about two-thirds the time they estimated this part of the work would take. The cement was run in just a little less than one week. Insulating and lining of the bins is now in progress.

News Notes

D. W. Card, Cardston, returned to his home last week, after several weeks stay here.

Earl P. Tanner of Magrath was a Raymond visitor on Monday last.

Mr. and Mrs. R. J. Fansett had a truck load of children out for an outing to Lethbridge on Saturday last.

A number of the Piano Students of Miss Lovering will journey to Lethbridge this coming week to take their examinations for certificates for the Toronto Conservatory of music.

Messrs A. W. Kirkham, L. D. King and Gene Pierson went to Lethbridge Tuesday to get a new Ford Coach for A. W.

A very enjoyable Father's Day program was held in the Raymond Second Ward on Sunday night when recitations, readings, musical numbers and tableaux were given in commemoration of Father's Day. A good crowd was present to enjoy the program.

The Nanton News had a special anniversary number last week, of the 30th anniversary of the Nanton News. Full of ads, and well illustrated with photos and snapshots it gives a comprehensive review of Nanton's growth and progress during the past 30 years.

According to the Taber Times Barnwell will have the biggest strawberry crop of its history this year, and it is likely Barnwell berries will soon be on the local market. Other reports state that many of the B.C. berries were ruined by frost this year.

The local Legion Band received an invitation Tuesday evening to take part in the Parade being held in connection with the Lethbridge Fair and Stampede on July 18th and 19th.

Mr. and Mrs. Earl Scoville served dinner on Sunday to the following guests: Misses Margaret Fisher, Mildred Galbraith, Jennie Hinman, Lenore and Wyora Scoville and Clifford Batty, Walter Fairbanks, Milo Vance and Lawrence McNaughton.

We had another beautiful shower on Sunday last, which went down in gardens to a depth of about one inch and a quarter. It was very spotted over the district, and while some parts got a heavy shower, other districts only received enough to settle the dust. It seemed heavier toward the ridge south of the town.

"STATE FAIR"

Miss Jennie Hinman of Cardston spent Sunday in Raymond, a guest of Miss Wyora Scoville.

The only safe side to any argument is in the middle.

Residents of Lake Andres, S. D. say a recent tornado moved part of Lake Andres a half mile into Johnson's Bay, an arm of the lake that had been dry for ten years, and that the fish were taken right along with it.

There has been a marked advance in stock quotations of all kinds as well as grain, and if present prices hold it cannot help but improve conditions all over the country.

2,000 were feared drowned in China as a result of heavy floods of the Yangtse river. Cloudburst resulted in rapid rising of the river, so that walls of water were sweeping through cities and towns in its course.

William J. Coward of Haney, B. C., was killed and dragged around the pasture all day Monday when his 1,600 lb. Holstein bull became enraged and tangled Coward up in the chain, and then dragged him until all his clothing was torn off the body. The bull had to be killed to get the body.

Among the popular wishes of the day are those who would like a peep at the World's Fair in Chicago or at the Grain Exhibition in Regina. The Calgary Stampede will soon be in full swing and a few days there would be very acceptable to Stirling to see what can be done most of us. These ambitious we would like to see them fulfilled.

In the recent musical examinations conducted by the Associated Board of The Royal School of Music, R.A.M. and R.C.M., Marie Eva Cope passed with marks of Distinction for Piano, Theory and Practical. We congratulate Miss Eva on her accomplishment.
